

Trading Relationship Request (TRR)

Step-by-step guide on how to accept the TRR (Trading Relationship Request):

What is the TRR?

The TRR is an electronic agreement that connects Stryker and its suppliers on the SAP Business Network. It comes in the form of an email from SAP at "ordersend-prod@ansmtp.ariba.com" and must be accepted electronically.

Once you receive the email, click on the link to proceed. This will take you to the Ariba Network sign-in page.

Step	Screenshot
<p>Trading Relationship Request email</p> <ol style="list-style-type: none">1. You will receive an email from Stryker Corporation (from an SAP/Ariba email address)2. The second step is to click on the blue button labeled "Accept your customer's trading relationship request". <p>**NOTE: If setting up a new account, your intended account administrator should accept the trading relationship request. This email can be forwarded to the appropriate colleague.</p>	 <p>The screenshot shows an email interface with the following content:</p> <ul style="list-style-type: none">Subject: Action Requested: Accept Trading Relationship Request from Stryker Corporation for Transacting on the Ariba NetworkFrom: Stryker Corporation <ordersender-prod@ansmtp.ariba.com>To: Mack, EugeneMessage body: "ACTION REQUIRED" section with a blue button labeled "Accept your customer's trading relationship request" highlighted by a yellow box.Section: "WHAT IS THE ARIBA NETWORK?" with a bulleted list of benefits.Section: "ARE THERE FEES ASSOCIATED WITH THIS SERVICE?"

Step

Connect with Stryker

In this screen, you will see these two buttons, with a reference for each one to know which one you must select.

Note: Please never click on "**Review Accounts**" if you are creating a **new account**. At the end, the option will appear, and you must select "**Continue with account creation**."

If you want to use your existing ANID, you can click on "**Use Existing Account**". When using existing account, login with your valid credentials linked to your company ANID. However, if you prefer to create a new ANID, you should click on "**Create New Account**".

Step

User creation

Within the same form, there's a section where you'll enter the administrator's details (This is the person responsible for managing our purchase orders).

Consider the following information:

First Name and Last Name: Your first and last name should be provided.

Email: It will be the email address you want to use for the account.

Username: Must be in an email format (johndoe@stryer.com), however it doesn't need to be a valid email address. If you're creating a new account, you must use a username that hasn't been used before.

Password: It must contain a minimum of 8 characters, with one uppercase letter and one special character included. Example: Ariba1720@ / Ariba1521-

Business role: Use one in the list of your preference.

Terms of use: You must check both boxes indicating that you agree to the terms and conditions of use.

I'm not a robot: You need to check the box in this section, and the page will provide you with instructions on how to complete the task.

Finally, you need to click on "**Create account.**"

Guide on how to confirm acceptance if Stryker does not appear in your portal:

Confirming Acceptance

Sometimes the TRR does not automatically accept when you create a new account or connect an existing one.

To double-check this, you will start by selecting your profile in the top right corner of the Ariba homepage.

From there, select Settings, then Customer Relationships.

After that, you will be brought to a screen showing your current relationships held within the SAP Business Network portal. From there you will be able to find the Stryker relationship and make sure that your Trading Relationship Request is showing as accepted.
