

ASC Observer

Unique challenges

Tailored solutions

July, 2020

Whatever the case, we've got you covered

To meet the unique needs of ASC patients, surgeons, and administrators, Stryker is proud to introduce our new ASC-focused business.

Whether you're just establishing your ASC or building on an already successful practice, you've got ambitious goals—both for your patients, and for your business. That's why the first thing our ASC experts always do is listen to your plans for the future.

"We aim to deliver tailored solutions to help build and grow your ASC business, including strategy, financing, and ongoing support," said Andy Pierce, Group President at Stryker. Let's talk about how Stryker, and our deep portfolio of products, can deliver for you—both now and in the future.

Mako SmartRobotics™ in an ASC setting

Over a 30 year career in orthopedic surgery, Dr. Scott Schoifet has grown from inpatient total joint replacement to building and operating his own ASC. Learn about how his practice has flourished, and his experience with Mako SmartRobotics™, at our free webinar, "Mako in an ASC Setting."
