

# JR45

## Year of learning

Join us for JR45, an interactive and on-demand monthly education series focused on the latest techniques and technologies in hip and knee arthroplasty.

Each month, we'll provide educational content to support the 45-minute surgeon faculty-led case reviews and decision-making discussions.

### Live case reviews | On-demand learning

Mark your calendars...

2023	September 18	<b>Enhancing Functional Knee Positioning™</b> Enhancing Functional Knee Positioning™ with Triathlon and Mako Total Knee 2.0
	October 23	<b>Who, why and how? Exploring partial knee procedures</b> Indications and clinical data on partial knee replacements in joint arthroplasty
	November 16	<b>Incorporating individualized planning into total hip arthroplasty</b> Individualized planning in total hip arthroplasty with functional hip positioning, pelvic tilt planning and impingement modeling
	December 18	<b>Bone loss, instability and infection   How to address them in revision knee arthroplasty</b> Evaluate and address the most common indications for revision knee arthroplasty
2024	February 22	<b>How to address infections in revision hip arthroplasty</b> Diagnose and address revision for infection in revision hip arthroplasty
	March 21	<b>What would you do? Controversies in Direct Anterior Approach</b> Debate different perspectives on treating patients through the Direct Anterior Approach
	April 22	<b>Tackling complex primaries through Direct Anterior Approach</b> Evaluate and address complex primaries, periprosthetic fractures, conversions and revision through the Direct Anterior Approach
	May 20	<b>Bone loss, loosening and instability   Revision hip arthroplasty</b> Discuss how to identify and address the most common indications in revision hip arthroplasty
	June 20	<b>Tackling complex primaries with 3D CT-based preoperative planning</b> Evaluate and address complex primaries with 3D CT-based preoperative planning
	July 11	<b>Hinge: When you can use it in revision knee arthroplasty</b> Indications for a hinge prosthesis in complex revision knee procedures

The faculty are paid consultants of Stryker Orthopaedics. The opinions expressed by the faculty are those of the faculty and not necessarily those of Stryker. Individual experiences may vary. A surgeon must always rely on his or her own professional clinical judgment when deciding whether to use a particular product when treating a particular patient. Stryker does not dispense medical advice and recommends that surgeons be trained in the use of any particular product before using it in surgery.

The information presented is intended to demonstrate the breadth of Stryker's product offerings. A surgeon must always refer to the package insert, product label and/or instructions for use before using any of Stryker's products. Products may not be available in all markets because product availability is subject to the regulatory and/or medical practices in individual markets. Please contact your sales representative if you have questions about the availability of products in your area.

Stryker Corporation or its divisions or other corporate affiliated entities own, use or have applied for the following trademarks or service marks: Mako, SmartRobotics, Stryker. All other trademarks are trademarks of their respective owners or holders.
