

LIFELINKcentral™ AED program manager

Wrap-around package*

Stryker’s LIFELINKcentral AED program manager is designed to provide consistent support when you need it most, with instant updates about AED readiness from a central dashboard.

The Wrap-around package is designed to help reduce workload and cost with an assigned, dedicated AED program administrator to help manage your AED program from implementation and ongoing readiness support, to clinical oversight and post-event review.

Simple and scalable, the Wrap-around package meets the federal guidelines for public access defibrillation in federal facilities.

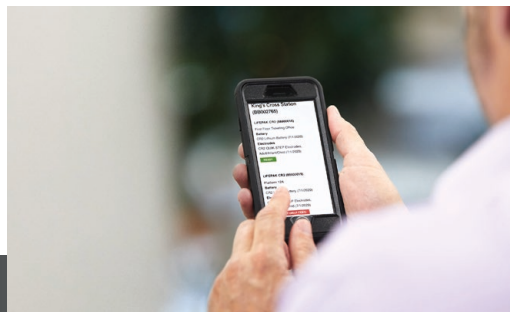

Implementation

- **Coverage:** the Wrap-around package covers up to 10 AEDs in one building
- **Medical direction:** AED prescription and medical oversight provided
- **State/local registration:** each package includes assistance with AED registration process
- **CPR/AED training:** option to purchase ongoing training sessions for staff
- **Training records:** unlimited tracking and storage for staff training records

Program assistance

- **Account support:** Stryker’s dedicated AED program administrators
- **Asset expiration tracking:** email notifications alert customers of expiring devices and supplies
- **Event support:** users receive post-event medical oversight, clinical review and supply replenishment upon accessory expiration

*LIFELINKcentral Wrap-around is only available to federal government customers.
